The solution for your industry

- **Production Optimization**

Automate to increase efficiency and reduce costs.

- **Integrated Management**

Manage projects, orders, inventory, and resources from a single platform.

- **Guaranteed Quality**

Control quality at every stage to ensure optimal results.

- **Traceability & Reporting**

Track your products and get clear reports to support smart decision-making.

Wood Manager is the solution to manage your glulam beam production.

Additionally, we develop **custom features tailored to each company** for seamless integration into **your production**.

Gain **productivity**, **accuracy**, and **peace of mind**!
